

# Krzysztof Ros, Divided (ft. J&M)

Tedious longing is my state  
We're now divided by fate  
I can't see your face anymore  
Life without you isn't like before

I walk around foreign places  
Looking into strangers faces  
Nothing here is not for me known  
I feel like just forever alone

Although we have to life between lies  
We will overcome adversities  
Tedious longing is my state  
We're now divided by fate

We can't never let it fade  
Our feeling is above our fate  
Divided although together  
We'll be united forever

We can't never let it fade  
Our feeling is above our fate  
Divided although together  
We'll be united forever

Inside of me just pain and sorrow  
and all the time, uncertain tomorrow  
I feel like I lost something  
Now I know you are that missing thing

And when i lost any hope  
When i think we can not cope  
When I think everything's lost  
I get up without looking at cost

All the time i tried to say  
But now it's too late, you're fading away  
Tedious longing is my state  
We're now divided by fate

We can't never let it fade  
Our feeling is above our fate  
Divided although together  
We'll be united forever

We can't never let it fade  
Our feeling is above our fate  
Divided although together  
We'll be united forever

We can't never let it fade  
Our feeling is above our fate  
Divided although together  
We'll be united forever
