

KT Tunstall, Black Horse & The Cherry Tree

Under my feet
Miles of nothingness
Testing my senses

Strange as it seems
Feels as if I've been
Here before

It's beautiful
So simple
Like black and white

I said goodbye
Waving with a smile
As I left the planet

The message was short
My radio was old
As the universe

It's in the paper
The picture
In black and white

And when I look through
The window
It's black and white
