

# Kuba Szmajkowski, You Do Me (piosenka na Euro)

Girl you told me today  
I'm lost, unaware  
That I'm just a little too late

I got bridges to burn  
And no time left to learn  
See, I'm gonna misbehave

We used to be fire  
Was aiming for the sky and above

I'll be on my way  
We could only fail  
No time left to heal what's been torn apart

I'll be on my way  
We could only fail  
No time left to feel with a bleeding heart

You do you  
I do me  
Let us kill history  
We .. and ain't getting better

'Cause I'll be on my way  
We could only fail  
Let It all fall down  
You do you  
And I do me

Girl I held you last night  
With a head full of doubt  
Can broken hearts make a sound?  
Thought we were up in the clouds  
But we never left ground  
Still time enough to lose our mind

We used to be fire  
Now we're only liars and a...

I'll be on my way  
We could only fail  
No time left to heal what's been torn apart

I'll be on my way  
We could only fail  
No time left to feel with a bleeding heart

You do you  
I do me  
Let us kill history  
We .. and ain't getting better

'Cause I'll be on my way  
We could only fail  
Let It all fall down  
You do you  
And I do me

Say what you mean  
Do you mean what you say  
No reason to wait  
No it's never too late  
Say what you mean

You know we'll be okay  
So tell me

I won't stay at home  
It's time for me to go

I'll be on my way  
We could only fail  
No time left to heal what's been torn apart

I'll be on my way  
We could only fail  
No time left to feel with a bleeding heart

You do you  
I do me  
Let us kill history  
We .. and ain't getting better

'Cause I'll be on my way  
We could only fail  
Let It all fall down  
You do you  
And I do me
