

# Kubb, Somebody Else

I don't want somebody else  
and I don't need anybody else  
you're gonna see that for yourself  
and you're gonna feel it in your head

Chorus

coz I dont want somebody else  
Everytime you leave me alone girl you know you put me out in the cold but this time I'm not gonna  
I'd rather die

No more pride taking us down  
and no more time working it out  
I turned all the lights off in this house  
and i told all youre ghosts to get out

Chorus
