

# Kula Shaker, S.O.S.

Blood transfusion, revolution,  
Satellites on Mars,  
Man became the spawn of Satan,  
Driving round in cars.

I read the news but the news didn't fascinate,  
I stayed at home, watched the media ejaculate.

This is the age of decay and hipocrisy,  
Sometimes I feel like the world isn't ready for me.

Every time I turn a microscopic worm is telling me he's it,  
Dressed in robes of cosmic ego, crawling around in shit.

I read the news but the news didn't fascinate,  
I stayed at home, watched the media ejaculate.

This is the age of decay and hipocrisy,  
Sometimes I feel like the world isn't ready for me.
