

Kungs, Don't You Know (ft. Jamie N Commons)

I'm gonna rock your body
Take it down slow
Gonna rock your body
Don't say now!

I'm gonna rock your body
Take it down slow
Gonna rock your body
Don't say now!

Don't say now!

Big city, beautiful sky
The only thing I want is a taste of life

Soft sand flickering lights
Your beating, breathing heart keep me from dying

I'm gonna rock your body
Take it down slow
Gonna rock your body
Don't say now!

I'm gonna rock your body
Take it down slow
Gonna rock your body
Don't say now!?

Big city, beautiful night
The only thing I want is a taste of your heart

Wherever I go
It's gonna be all right
There's nothing in the world that can keep me from flying

I'm gonna rock your body
Take it down slow
Gonna rock your body
Don't say now!

Don't say now!
