Kurt Nilsen, Here She Comes

Have you ever met my friend? Her náme is June She's a solid piece of work Brought up in a shitty little town Which stays unknown Still she misses home She's done it well on her own Here she comes She won't be brushed aside - oh, no Here she comes You'll know it's her Here she comes Here she comes While you've been sleepin' she been up Since i don't know when Never waste her time Once she sets herself a goal She switches mode You'd better be on her side You'd better be careful! Here she comes She won't be brushed aside - oh,no Here she comes You'll know it's her You'll know for sure here she comes And her voices lead her on
