[Intro: repeat 4x]

"yo man, i don't think they heard you  
Won't ya tell em what your name is?" - [dr. dre]  
"daz, kurupt.."

[xzibit]

Aight everybody get on the ground right now  
Yeah, this is not your money this is insured by the federal government  
So this is not your money, don't move  
Don't be a hero, and you won't get blown the fuck up right now  
Yeah, aight y'all we got three minutes  
Startin now let's keep it rollin

[dogg pound]

Hit the bank from the back  
Double the trouble, forcin my entry  
The first nigga that i saw, shot him in the jaw  
Xzibit started stompin him and so did we (get down bitch)  
Aww shit, about time we started dumpin on security  
High society -- takin what's mine  
Snatchin each purse after purse -- for every nickel and dime  
Premeditated created by the scorn and the hate  
But i made ma, the big time, lights and the shine  
It's a full scale war -- everybody bear arms  
Wear body armor, national arms  
Dip away to get away -- sirens alarms screamin  
Yellin out, "hell demons of war"  
Hell hounds that surround the wells fargo browns  
No tomorrow, hollow, harness rounds

Take a sip of your perrier

To pay, i'ma dump like a dumptruck, scramble to make my escape  
Dat nigga daz, shootin so nothin else come in  
I'm shootin in the opposite direction, we closed in  
Shells spread nigga -- because we can do the work  
First things first -- like snoop, i'ma shoot the clerk  
And i did -- now it's time to split -- get nigga get  
(let's go) dumpin and shoot the hostages  
Soopafly outside in the ride  
Bout to start shootin everything that he see outside

[xzibit]

Loose cannons, face covered with bandanas  
Chrome pieces - motherfuck the police  
It's everybody killers on mine  
If i ever get caught for crime, won't be doin federal time
