

# Kutless, Pride Away

Have u ever seen a man stumble and fallen,  
all do to his pride

I don't want to be another one

Fallen due to my pride

Woah...

Take my pride away,pride away

Take my pride away

Lord keep me only focused on u

Make me a humble man

Don't ever let me take the credit

For all that u have done

Woah...

Take my pride away,pride away

Take my pride away

Away.....

Standing here amidst this point of definition

Pushing for position as I battle opositionAm I on a mission or is it all in vain

Do u notice the difference or is it all the same

And who do I blame when my vision get blurry I

Get in a hurry frustrated and feeling fury

Faith is enduring to stand the test of time

Answers are plain we make them hard to define

But pull from divine when problems arise

But pride denies and my stand never survives

In every one of our lives in every single day

We need to lay down our pride as God takes it away

Take my pride away,pride away....
