

Kutless, Tonight

I hear the voice of thousands all gathered here
Are they just a noise soon lost in air
Or is there more, is there more
You lift your hands up high reaching to the sky
Is there a reason can, can you tell me why
Or is there more, is there more
So let me ask you
Can't you feel the music all around you
Flashing lights but love can fill your mind
Can't you feel the sounds of love flow through you
We're praising Him tonight [2x]
Some say that it, it's not right
For us to praise on this, type of night
Tonight there's more there's more
So let me ask you
Can't you feel the music all around you
Flashing lights but love can fill your mind
Can't you feel the sounds of love flow through you
We're praising Him tonight [2x]
