

# Kwiet Storm, Leave Me Alone

## Verse 1

I'm not your lover but you say I gotta be  
Cause you curled up in my sheets  
Don't mean callin every week girl,  
Gotta dial 9-1-1 everytime you 2-way me  
Like it's some kind of emergency  
That you gotta come and see me,  
Billie Jean is not my lover, neither are you  
So stop claimin that I'm the one  
And the baby kid is not my son,  
To all you bug-a-boos and independent women,  
Keep on payin all of my bills  
I'm just tryna keep it real now

## Chorus

Quit callin my phone, leave me alone I got you whipped  
Stop callin my two girl, it was a one night stand  
I tried to be yo man, get over it, baby I'm done with you  
Quit callin my phone, leave me alone I got you whipped  
Stop callin my two girl, these are the words from a man,  
Try and understand get over it (get over it)  
But you just can't handle it (can't handle it)

## Verse 2

Don't wanna be down with you so stop callin me,  
Don't you got some place to be  
Gimmie air I need to breathe so,  
If you see me in the streets or clubbin with my thugs  
Wave ya hand and walk on by,  
Betta yet just wink your eye

Just stressin me with all you might, actin right  
Actin like we that tight  
But I don't wanna get down with you no more  
Cause it was just for that one night,  
So understand me cause I said just what I meant (uh)  
When you call don't you get the hint (wh- wh- what)  
Wait I'm not answering it, so ooh yeah

## Chorus

Quit callin my phone, leave me alone I got you whipped  
Stop callin my two girl, it was a one night stand  
I tried to be yo man, get over it, baby I'm done with you  
Quit callin my phone, leave me alone I got you whipped  
Stop callin my two girl, these are the words from a man,  
Try and understand get over it (try and understand)  
But you just can't handle it

Stop callin me, pagin me, stressin me, testin me,  
Callin me (You gotta quit callin me yeah)  
Just keep callin me, pagin me, stressin me, testin me,  
Callin me (I don't even know why I gave you my number)  
Keep callin me, pagin me, stressin me, testin me,  
Callin me (Everynight ooo girl)  
Just keep callin me, pagin me, stressin me, testin me,  
Callin me (All it was was a one night stand)
