

Kygo, Avicii, Sandro Cava, Forever Yours - Avicii

every time I see your face
there's a cloud hanging over you
in such a beautiful way
there's a fortune to your solitude

you should let me love you
hold me now, forevermore
I've been thinking of you
tell me I am forever yours
you should let me love you
hold me now, forevermore
I've been thinking of you
tell me I am forever yours

tell me I am forever yours
tell me I am forever yours

and you won't ever have to try
to live b everybody else's rules
it'll be just you and I
together in the altitude

you should let me love you
hold me now, forevermore
I've been thinking of you
tell me I am forever yours
you should let me love you
hold me now, forevermore
I've been thinking of you
tell me I am forever yours

tell me I am forever yours
tell me I am forever yours

tell me I am forever yours
tell me I am forever yours

you should let me lobe ya, love ya
you should let me lobe ya, love ya
