

Kygo, Freeze

We out on the roof top of your car under the sky
I'll tell you the truth crossing my heart, hoping to die
I don't know nobody, like you, no, nobody (hey, ooh ah ah ah)
I'm watching a star, million lightyears away
I wish I could pause, and hit replay
'Cause summers go so fast

Darlin' can we freeze?
Let me save this perfect memory
Remember how it feels like flying in the dark?
Like I must be awake inside a dream
Darlin' can we freeze?
'Cause even though you're right here next to me
A part of me still feels like nothing ever lasts
Like I'm already missin' you and me
Oh oh can we freeze?

Darlin' can we freeze?
Oh oh can we freeze?
Darlin' can we freeze?
Oh oh can we freeze?

Why am I like this? Why does my mind go racing?
This beautiful silence but I feel like I'm always waiting
Like it's just a matter of time, til' it shatters

Darlin' can we freeze?
Let me save this perfect memory
Remember how it feels like flying in the dark?
Like I must be awake inside a dream
Darlin' can we freeze?
'Cause even though you're right here next to me
A part of me still feels like nothing ever lasts
Like I'm already missin' you and me
Oh oh can we freeze?

Oh oh can we... freeze?
Darlin' can we freeze?
Darlin' can we freeze?
Can we freeze?
