

Kygo, Kids in Love (ft. The Night Game)

this is our last goodbye
don't come to find me
So hard to see you cry
please, somebody blind me
Cause I can feel it
I'm still logging onto every word
my heart is beating
and I'm sorry that I left you hurt

We were kids in love
and then we grew up
but won't you hold me close tonight
like we're kids in love
kids in love
kids in love
kids in love

engine on, in the drive
running for hours
slowly, we twist the knife in
folding like towers
and I can feel it
and we're running out
of hope tonight
I hear you breathing
as we're hanging on to you and I

We were kids in love
and then we grew up
but won't you hold me close tonight
like we're kids in love
kids in love
kids in love
kids in love
kids in love
