

Kygo, Sasha Sloan, I'll Wait

i'll never forget
the songs we used to play
and when I put them on
the feeling never fades

out my body
I hope you're thinking of me

there won't be a night
there won't be a place
where you don't cross my mind
where I don't see your face
in somebody
I hope you're thinking of me

people say we're foolish
people say we're dumb
people say we're caught up
in temporary love
we don't know what we're doing
they say we're too young
but they don't know a thing about us

I'll Wait forever
that's what we said
16th of September
lying in my bed
I'll Wait forever
it's never too late
couple thousand miles
it's just a little space

I'll Wait
I'll Wait
I'll Wait
couple thousand miles
it's just a little space
