

Kygo, Think About You (ft. Valerie Broussard)

We've been quiet
Said we'd try it for a while
But that was years ago

If you see me, if I see you,
A part of me hopes that we do, no
Say everything we wanted to
After all this time

I cut the tree down that we grew
you know the one we carved our names into?
still I can't go back to the place we knew
cause they ask me if I still think about you
only all the time

I still think about you
think about you
only on the time
I still think about you
think about you
only on the time
only on the time
I still think about you
think about you
only on the time

(I still think about you
think about you
only on the time
I still think about you
think about you
only on the time)

hometown drivin' , autopilot
my phone's on silent in case you call

If you see me, if I see you,
A part of me hopes that we do, no
Say everything we wanted to
After all this time

I cut the tree down that we grew
you know the one we carved our names into?
still I can't go back to the place we knew
cause they ask me if I still think about you
only all the time

I still think about you
think about you
only on the time
I still think about you
think about you
only on the time

(I still think about you
think about you
only on the time
I still think about you
think about you
only on the time
only on the time
I still think about you
think about you
only on the time)
