

Kyla, Always On Time

When I am lost, you were there
You pulled me through
And bring me to the right track
When I'm afraid, you let me feel your love is near
You gently comfort me,
You never let me drown and in my world of fear
You're always here, your love is so securing
You always bring my heart to sing
When I'm so low, you have been so uplifting
You're always there whenever I need you on time
You're never late, your timing's always perfect

[pre chorus:]
ooh oh oh my love ooh oh oh my love
I can count on you
Through all the times you're by my side

[chorus:]
good love, sweet joy, in my heart you bring
I really just can't get enough of all these lovely things
You never failed me, assured,
You're always on time
You've been my hope, my strength, my shield
In times of need,
If I might fall you're there to catch me
You're there for me, I don't worry
You're always on time

When I am lost, you were there
You pulled me through
And bring me to the right track
When I'm afraid, you let me feel your love is near
You gently comfort me,
You never let me drown and in my world of fear
You're always here, your love is so securing

[pre chorus:]
ooh oh oh my love ooh oh oh my love
I can count on you
Through all the times you're by my side

[chorus]

[bridge:]
so if the times they just a little hard for me
and all the people they just
seem to give up on me
but you won't let me fall
you won't give up on me
you're always on time, it's you

[chorus]

[break:]
everything's gonna be alright
I say baby,
You've made me stronger than I used before so
Everything's gonna be alright
Come on, reach out for me,
Each day I love you more
Everything's gonna be alright
I say baby I need you,
Just can't go on without your love
Everything's gonna be alright

No need to worry, you're always on time
