

Kyla, Someone To Love

Never thought I'd fall in love again
To find the pieces of the puzzle life cannot begin
The search begins with knowing I need you
Could not imagine in my dreams that you
Need me too

[chorus:]
Someone to love, all my dreams have/will come true
Now that I've found you
Someone to love, alone I feel no more
Since you unlock the door to my heart

There was an empty void inside my heart
I tried to fill the space with anything,
But left it in the dark
Then a blessing came in the form of you
Now I know that God has smiled on me too

[bridge:]
I don't know when it would come
All I know is that I wanted someone
To take me far away from my loneliness
So I thank you, I thank you for coming
Into my life

[chorus x3]
