

Kylie Minogue, Dancing

No one wants to stay at home
nobody wants to be alone
when you come knocking
I'll be at your door
I don't ever wanna stop
I'm gonna give it all I've got
and when they ask me
who could ask for more?

can't stand still
I won't slow down

when I go out
I wanna go out dancing
when I go out
I wanna go out dancing
I wanna go out dancing

when I go out
I wanna go out dancing

this is where I wanna be with you
your arms wrapped around me
and fireworks reflecting in your eyes
this is how I wanna feel
the wild kiss, the music reeling
getting down, riding all the highs

can't stand still
I won't slow down

when I go out
I wanna go out dancing
when I go out
I wanna go out dancing
I wanna go out dancing

when I go out
I wanna go out dancing

everybody's got a story
let it be your blaze of glory
burning bright, never fade away
and when the final curtain falls
we could say we did it all
the never ending of a perfect day

can't stand still
I won't slow down

when I go out
I wanna go out dancing
when I go out
I wanna go out dancing
I wanna go out dancing
