

Kylie Minogue & Jessie Ware, Kiss of Life

Kiss it
Kiss it
Come on, baby!
Kiss it
Come on, baby!

Prove your love for me
It's so good
I am feeling free
I've been patient,
I've been perfect
From the sidelines
Make it worth it
If you prove your love for me

If you want it
Now's the time to get a little taste of it
I'd die
You could only see
And when the moment's so sweet that I could cry

Give me the kiss of life

Kiss of life
All night dancing
Free your mind
Pay attention
Keep your eyes on my lips
Sweet sugar highs
Give me the kiss of life

Come on baby
You know what to do
Give me the kiss of life
Has anybody ever told you
Your kisses, delicious
Give me the kiss of life

herry syrup on my tongue
How about a little fun?
And make it higher, baby
And make it wilder, baby
And make it
