

Kylie Minogue, Lights Camera Action

I'm two seconds away, I'm right around the corner now
I'm two seconds away, hold tight, I'm 'bout to arrive
And this space is a space where I let it go
And I hate to be waiting, so hold the door
I got shades on my face and I'm looking right like a [?]
Here I go

Tune it in, tune it out, all I want is the noise
Turn it up, turn it loud till you ain't got a choice
We're turning sinful tonight, it's about to go off
Tell me, can you feel it?

(Lights, camera)
Lights, camera, action, that's it
Lights, camera, action, that's it
Lights, camera, action, that's it

I look stellar tonight, my armour is my Gaultier
It's one hell of a ride, make sure you know you wanna play (You wanna play, oh)
'Cause this space is the space where I let it go (I let it go)
If you can't keep the pace, walk out of the door
I got shades on my face and I'm looking right like a [?]
Here I go

Tune it in, tune it out, all I want is the noise
Turn it up, turn it loud till you ain't got a choice
We're turning sinful tonight, it's about to go off
Tell me, can you feel it?

(Lights, camera)
Lights, camera, action, that's it
Lights, camera, action, that's it
Lights, camera, action, that's it

Tune it in, tune it out, all I want is the noise
Turn it up, turn it loud till you ain't got a choice (Till you ain't got a choice)
We're turning sinful tonight, it's about to go off
Tell me, can you feel it?
Lights, camera, action, that's it
