

Kylie Minogue, Right Here, Right Now

My desire's getting stronger
I can't hold back any longer
Next to me you belong
Now I'm living for the moment
When you're gonna come on over to me

[Chorus:]

'Cos I want you to be
Right here right now
I believe
You were meant to be
Right here right now
Right here right now

I can't fight the situation
I'm giving in to
Your temptation
Every time I see your face
I need you more and more
When are you gonna come on over to me

[Chorus 2x]

'Cos I want you to be
Right here right now
'Cos I want you to be

Now I'm living for the moment
When you're gonna come over to me

[Chorus]

[Repeat and fade]
