Kylie Minogue, Right Here, Right Now

My desire's getting stronger I can't hold back any longer Next to me you belong Now I'm living for the moment When you're gonna come on over to me

[Chorus:] 'Cos I want you to be Right here right now I believe You were meant to be Right here right now Right here right now

I can't fight the situation I'm giving in to Your temptation Every time I see your face I need you more and more When are you gonna come on over to me

[Chorus 2x]

'Cos I want you to be Right here right now 'Cos I want you to be

Now I'm living for the moment When you're gonna come over to me

[Chorus]

[Repeat and fade]
