

Kylie Minogue, The World Still Turns

If there was a chance
To save our broken romance
I'd let it go
'Cos now I know
That life doesn't end
You can start again
All isn't gone
Just carry on
Be your own best friend

It's easy to survive
Now that I finally realise

That the world still turns
The stars still shines
The way they did when you were mine
A broken heart
Is a lesson learned
Though we're apart
Baby, the world still turns

I couldn't believe
That you were going to leave
Without a care
Heading somewhere elsewhere
Ooh, my aching heart
Never thought that we would part
What could I do, my love for you
I was honest from the start

Time takes away the pain
And the sun will shine again

Cause the world still turns
The stars still shine
The way they did when you were mine
A broken heart
Is a lesson learned
Though we're apart
Baby, the world still turns
