

Kylie Minogue, When The Cat's Away

It's got to be time that I put my foot down
You push me and pull me with those games your playin'
And you know what goes around comes around
Cause I started hearing all the words they're saying

You're so conceited
I won't be cheated (Just listen)
One little push and you're gone

Everytime the cat's away
All the boys come out to play
Its bad behaviour
But I like the flavour
A little bird told me its true
So I do it back to you
Nice girls don't do it
But you push me too it
Ooohh ooooooh ha ha ha

I'm needing some liberation
Set me free
You tried to control me
But I'm disobeying
I'm tired of you giving me the third degree
When I've got a lead on you to stop you strayin'

You're so conceited
I won't be cheated (Just listen)
One little push and you're gone

Everytime the cat's away
All the boys come out to play
Its bad behaviour

But I like the flavour
A little bird told me its true
So I do it back to you
Nice girls don't do it
But you pushed me to it
Ooohh ooooooh ha ha ha

Everytime the cat's away
All the boys come out to play
Its bad behaviour
But I like the flavour
A little bird told me its true
So I do it back to you
Nice girls don't do it
But you push me to it
Ooohh ooooooh ha ha ha

Everytime the cat's away
All the boys come out to play
Its bad behaviour
But I like the flavour
A little bird told me its true
So I do it back to you
Nice girls don't do it
But you push me to it
Ooohh ooooooh ha ha ha

Everytime the cat's away
A little bird told me its true

Everytime the cat's away
A little bird told me its true
Everytime the cat's away
A little bird told me its true
