

Kylie Minogue, White Diamond

White Diamond
(Kylie Minogue/Babydaddy/Jake Shears)

I know that it's getting too much baby
But you don't need the words to say
Sometimes you feel you're at the end of the line
But tonight it's gonna fade away

You're looking out from the darkness
Feeling so alone and you need a flare
Well I've got the light that's gonna treat you right
And illuminate what's already there

Understand I will be there for you
Understand I'm a diamond for you
A white diamond for you

And just like a burning radio
I'm on to you
Your spell I'm under
In the silver shadows I will radiate
And flow for you
What you see and what it seems
Are nothing more than dreams within a dream
Like a pure white diamond
I'll shine on and on and on and on and on

There I'm gonna take you now
Where the tear will look out of place
Well I thought about it

But it took until now
To crystallise it into a phrase

Understand I will be there for you
Understand I'm a diamond for you
A white diamond for you

And just like a burning radio
I'm on to you
Your spell I'm under
In the silver shadows I will radiate
And flow for you
What you see and what it seems
Are nothing more than dreams within a dream
Like a pure white diamond
I'll shine on and on and on and on and on

And just like a burning radio
I'm on to you
Your spell I'm under
In the silver shadows I will radiate
And flow for you
What you see and what it seems
Are nothing more than dreams within a dream
Like a pure white diamond
I'll shine on and on and on and on and on

And on and on
And on and on
And on and on and on
