

Kylie Minogue, World Still Turns

Oh oh
Oh wah oh
Oh oh oh

If there was a chance
To save our broken romance
I'd let it go
'Cos now I know
That life doesn't end
You can start again
All isn't gone
Just carry on
Be your own best friend

It's easy to survive
Now that I finally realise that

[Chorus:]
The world still turns
The stars still shine
The way they did when you were mine
A broken heart
Is a lesson learned
Though we're apart
Baby the world still turns

I couldn't believe
That you were going to leave
Without a care
Heading somewhere elsewhere
Ohh my aching heart
Never thought that we would part
What could I do - my love for you
I as honest from the start
Time takes away the pain
And the sun will shine again, cause

[Chorus]

It's easy to survive
Now that I finally realise that

[Chorus]

[Repeat and fade]
