

# Kylie Minogue, You Make Me Feel

(chorus)

You make me feel  
gotta let you know  
when we are together  
you're so damn real  
never let you go  
wanna feel this way forever

i've lost my head  
you've taken over me  
past the point of no return  
you lucky boy  
you've got the best of me  
keepin' all of.....(can't make this out)

(bridge)

'cause it's the speed of you  
the shape of you  
the nerve of you  
the way you move  
all that we do, you're in my view  
I can't get enough of the  
speed of you  
not just dreamin' of you  
oh boy, can't believe your touch is for real

repeat chorus

it's so full on  
i'm lovin' it this way  
nobody can touch us now  
your girl friday  
seven days a week  
i'll will never let you down

repeat bridge

repeat chorus

passionately we get down  
the whole world stops turning  
and damn that can lead  
don't forget to breathe  
because I need you 'til the morning

repeat chorus
