

# L7, Monster

Come on over, is getting too late  
Is time to fish, no time to cut bait  
Foolish passion, you inspire  
With your kind of trouble, I'll never tire  
Monster... (monster in me)  
Bring out the monster (monster in me)  
In a world of disposable icons  
All the jokers, with phoney o' come on's  
I know, I can't depend on you  
When we're together, where hurting crew  
Monster... (monster in me)  
Bring out the monster (monster in me)  
Monster... (monster in me)  
Bring out the monster (monster in me)  
You bring out the monster in me...  
We don't need to look for trouble  
My partner in crime, my insanity double  
When life takes a turn from bad to worst  
You're always there, my lovable curse  
Monster... (monster in me)  
Bring out the monster (monster in me)  
Monster... (monster in me)  
Bring out the monster (monster in me)  
You bring out the monster in me...  
Monster in you
