

La Luna, Kisses Of Fire

Your kisses of fire
Burning a way into my heart
You feel my desire
Even when we are apart
Your kisses of fire ...

Give me your lips
The lips only I can barrow
Love me tonight
And let the devil have tomorrow

Your kisses of fire
Burning a way into my heart
You feel my desire
Even when we are apart

I see the danger
Still my flame grows higher
I am a surrender
To your kisses of fire

Your kisses of fire
Burning a way into my heart
You feel my desire
Even when we are apart
Your kisses of fire ...
