

# La Roux, Paradise is You

Walking alone in a sandy beach  
Everybody lovin' on the cigarette trees  
What's a day?  
Is crystal clear  
And  
Air is reach with water and breeze

...  
I'm stuck in a bay  
It looks like paradise  
But without you it's nothing nice  
Coz in your eyes there's my paradise

My paradise is You  
And everything I know is  
My paradise is You  
My paradise is You  
My heaven is you
