

La Roux, Paradise is You

Walking alone in a sandy beach
Everybody lovin' on the cigarette trees
What's a day?
Is crystal clear
And
Air is reach with water and breeze

...
I'm stuck in a bay
It looks like paradise
But without you it's nothing nice
Coz in your eyes there's my paradise

My paradise is You
And everything I know is
My paradise is You
My paradise is You
My heaven is you
