

Labia, Prisoner

Can't see you now
Want to turn back again
Want to feel what's gone
It's senseless defy again
I'm a prisoner can't liberate my self
It's out of my reach
I want to fly like bird I need some help
Please give me your hand I need some help
Please give me your hand
Before I go
I don't want that it ends now

There's my time I know where I should go

Prisoner

There's my time I know where I'm going
There's my time I know where to go

Where I ...
Where I ...

There's my time to go

I feel so cold I feel so cold can't resist much longer now
I feel so cold I feel so cold can't resist much longer now

Feels so cold prepare we are coming now
