

Labwrk, Coming For You

Now is the reason i can live again
Start me over lock me under now
Frozen by time everything's frozen
Risen - unspoken - unopen

No redemption

Get out of the way I'm
The one with a mission
The blame in the tone and
The voice in a prison
Smash through the
Barricadess of truth
Lies marching
Coming for you
Say it again
Coming for you
Say it again
Coming for you

Bent like a spoon melt into mirror
Distant voices becoming clearer
A man on the move is getting closer
Getting closer the point of no return

No redemption

Get out of the way I'm
The one with a mission
The blame in the tone and
The voice in a prison
Smash through the
Barricadess of truth
Lies marching
Coming for you
Say it again
Coming for you
Say it again
Coming for you

Open hands
Broken backs
Taken turn
Erasing tracks
Going down
Getting up
Into this
Into this
Never stop
Going round
Unlimited
Solid ground
Forced or fate
Assimalate
Into this
Into this
