

Labwrk, Parasite

No time no money theres nothing i can do
This place is ugly i find parasite you
I run it chases mudd pulling at my sole
Been drained of everything now i'm a fucking hole

Keep running in the rat race
Down a never ending staircase
And when i stop i feel it bite
Parasite
Inside out side all around

Cant win cant loose no brakes no shoes
The evolution of pollution is rotting in my head
So breath in the cancer now sell me the cure
Cause theres shit in the air
And piss in my fucking beer

Keep running in the rat race
Down a never ending staircase
And when i stop i feel it bite
Parasite
Inside out side all around
