

# Lacrimas Profundere, Lastdance

[music O. N. Schmid, lyrics Ch. Schmid]

It was the only sin  
To breathe you again  
And not to fall apart  
And leave you

All the tears on you  
All your saddest wishes  
For your last dance I  
And nothing was true

But never to be felt  
For all the blackest heart  
In nothing we drown  
And leave you

And so, and so  
We aren't  
And look how everything changes,  
And how we become, what we never wanted

All I want is you  
And everthing you can't do  
Pour your tears in me  
And never leave me

And for you  
I take everything  
But you aren't mine  
goodbye
