

# Lacrimas Profundere, To Love Her On Knees

What I said to her:  
Can't you see  
That we should be  
Till nothing's left to feed  
Or can you betray me  
Everything's out and is erased  
An error in my breast  
Or are you  
Oh no no  
Nothing can be guaranteed  
Please give me a chance to understand  
And I would do anything  
To wake up your shallow heart again  
What she said to me:  
Sorrowly doesn't work  
We shouldn't meet again  
And I'm sure it's better  
I should try to  
Forget her  
And I should do the same  
As she did  
Ha, ha, ha
