

Lacuna Coil, Entwined

And you take me over
Over again

Wonder how can I go on and on
When you want to bury my passion
You are the shell around and
I cannot escape
And I swallow my pride

Entwined together now
It's time to pass it over
(and you take me over, over again)
Entwined together now

And you take me over
Over again

Wonder
How can I live on and on?
When you want to live in a hurry
You are the wall
that I,
That I have to remove
And I swallow
I swallow my pride

Entwined together now
It's time to pass it over
Entwined together now
Entwined forever

And you take me over
Over again

Entwined together
Entwined forever
