

# Lady Antebellum, All for Love

Love, something you know nothing of  
Cause love don't turn and run  
And leave you standing in the dark.  
You, tell me that your feelings changed  
And you don't wanna stay and break my heart  
Well baby it's too late.

Cause what about the times that you said to me  
That I was everything that you'd ever need  
How come you just up and walk away  
And look me in the eye and say

You did it all for love  
You did it all for love  
You did it all for love  
You did it all for love

Love, what was I supposed to do?  
Falling out can be so cruel  
But I just can't ignore the truth.  
So, don't tell me I don't understand  
Cause I don't want this on my hands  
But it's all that's left to do.

Everything you want's what we used to be  
And I can't fight these feelings inside of me  
As much as this hurts, it's the only way  
Believe me when I say

I did it all for love  
I did it all for love  
I did it all for love  
I did it all for love

Love, something you know nothing of  
Cause if you did, there's still be an us  
I did it all for love.
