

# Lady Antebellum, Life as We Know It

(Verse)

I know the road you know ain't quite the way you planned it  
But the twists and turns are all part of the magic  
And believe me you'll get through it  
You'll see

(Chorus)

So don't be afraid  
Of the things you cannot change  
As the sun surely follows the rain  
I believe that you can't try to lead or control it  
'Cause that's just life as we know it

(Verse)

Well I don't know much but in life there's all these reasons  
And beauty lies in the young child, that's believing  
You know love is all we feel and need  
To breathe

(Chorus)

So don't be afraid  
Of the things you cannot change  
As the sun surely follows the rain  
I believe that you can't try to lead or control it  
'Cause that's just life as we know it

(Bridge)

Oh it will pass you by so fast  
So don't let it go  
'Cause only love will last  
Long after you're gone

(Chorus)

So don't be afraid  
Of the things you cannot change  
As the sun surely follows the rain  
I believe that you can't try to lead or control it  
'Cause that's just life as we know it

Life as we know it  
Life as we know it
