

# Lady Antebellum, Lookin' For A Good Time

Girl youre beautiful  
Youre bout near perfect  
But I bet somebodys already told you that  
Name your poison  
Name your passion  
Cause a boy like me just couldnt help but ask  
Keep on talking to me baby  
Im hanging on your every word  
Keep those drinks a coming maybe  
Well both get what we deserve  
Chorus  
How bout baby  
We make a promise  
To not promise anything more than one night  
Complicated situations  
Only get worse in the morning light  
Hey Im just lookin for a good time  
Put in a long hard week doing this 9 to 5  
And youre just the girl to get that off my mind  
You shouldnt ve worn that dress  
You shouldnt dance like that  
You got this little heart of mine in overdrive  
I sure love this conversation  
The band is good, the musics loud  
But would you get the wrong impression  
If I called us a cab right now  
Repeat Chorus  
Go ahead and lie to me and pull me close  
Tell me that you love me even if you dont  
The rule is dont you ever even talk about forever  
But you never say never in life  
Repeat Chorus  
Hey Im just lookin for a good time
