

Lady Antebellum, Lookin' For A Good Time

Girl youre beautiful
Youre bout near perfect
But I bet somebodys already told you that
Name your poison
Name your passion
Cause a boy like me just couldnt help but ask
Keep on talking to me baby
Im hanging on your every word
Keep those drinks a coming maybe
Well both get what we deserve
Chorus
How bout baby
We make a promise
To not promise anything more than one night
Complicated situations
Only get worse in the morning light
Hey Im just lookin for a good time
Put in a long hard week doing this 9 to 5
And youre just the girl to get that off my mind
You shouldnt ve worn that dress
You shouldnt dance like that
You got this little heart of mine in overdrive
I sure love this conversation
The band is good, the musics loud
But would you get the wrong impression
If I called us a cab right now
Repeat Chorus
Go ahead and lie to me and pull me close
Tell me that you love me even if you dont
The rule is dont you ever even talk about forever
But you never say never in life
Repeat Chorus
Hey Im just lookin for a good time
