

Lady Violet, In Your Mind

In Your Mind

I'll make you change your mind ..x 4

better for you to make me change your mind
I would never do it
don't make me waste my time
don't try to find a little piece of time
another place in town

I would never make the same mistake again
ain't nothing to do but If you let me stay
don't try to find a little piece of time
another place in town

I will come (I will come)
into your life
if you let me try

Chorus :

Forever and ever
I'll breathe by your side
I've still been waiting in your mind

over and over
here in your life
I will remain in your mind

ever and ever
I'll breathe by your side
I've still been waiting in your mind

over and over
here in your life
I will remain in your mind

I'll make you change your mind..x 4

I used to screaming the sky expose
a breaches are ripping at my clothes
But I can't imagine what's on your mind
what's in my mind

I would never make the same mistake again
ain't nothing to do but If you let me stay
don't try to find a little piece of time
another place in town

I will come (I will come)
into your life
if you let me try

Chorus :

Forever and ever
I'll breathe by your side
I've still been waiting in your mind

over and over
here in your life
I will remain in your mind

ever and ever

I'll breathe by your side
I've still been waiting in your mind

over and over
here in your life
I will remain in your mind
I'll make you change your mind..x 4
