

# Lady XO, How That Goes

I'd never do you dirty  
I'd never do you dirty  
I'd never  
I'd never  
I'd never do you dirty

Come kiss me on my neck  
Don't show me disrespect  
The best that you could get  
I bet you feel regret  
When I'm with you I feel some type of way  
You be my favorite part of every single day  
I'll take it off for you so you can take my stress away  
Babe just take it all away

I listen to sad songs  
I'm hoping that you know you so wrong  
I do not got time for the games  
All up in each others face  
How you let her take my place  
Beat a bitch up I don't play  
You know I don't play

Wait just a minute  
Why you act like you don't fuck with me  
Why you frontin you go tellin her it's nothin  
You turned nothin into somethin  
Somethin  
Somethin  
Somethin  
Remember all of the shit you said to me  
You got me shivering  
Feels like it's 20 degrees below  
You're not the one that I used to know  
Now you out playin the field steady chasing hoes  
And when it all catches up  
Tell me how that goes  
Tell me how that goes

I'm not the one that's cold  
This shit been gettin old  
Tell me how that goes  
Tell me how that goes

Was it really worth it  
I hope you think about me when she calls your name  
Then you just feel it  
Cause hearing it out her mouth don't sound the same  
Yeah you out here lookin stupid  
Searchin for approval from all these different bitches  
They never have your best interest but it's not my business

Karma's right around the corner  
Can't mask it with the shots you pour up  
So think hard the next time that you fuck up  
Don't you complain when it's you that's all fucked up  
Let's not go make it obvious I was down from the start of it  
Thinkin of it makes me want to end the world but still leave you part of it  
Maybe then you'd understand  
Shit ain't go the way I planned  
Don't ever call yourself a man  
Don't ever call yourself a man  
Don't ever  
Don't ever

I'd never  
I'd never  
I'd never
