

# Ladytron, The Lovers

We're the silence that wakes you day  
We're the sound of your name outside the room  
We're the sirens across the street  
Where the lane it becomes an avenue

Oh we're right under you nose  
We're the lovers that you don't know  
Baby we go and you follow  
We are the lovers, the lovers you don't know

We're the lovers that you don't know  
We're the sound of you name outside the room  
We're the sirens across the street  
Where the lane it becomes an avenue

Oh we're right under you nose  
We're the lovers that you don't know  
Baby we go and you follow  
We are the lovers, the lovers you don't know

Oh we're right under you nose  
We're the lovers that you don't know  
Baby we go and you follow  
We are the lovers, the lovers you don't know
