

Ladytron, White Light Generation

Hold like our own video
What luck to have another turn
High in victorian england
Away from the smoke and the fire

the mirror you'll see,
has a memory, special feature

It's falling on you from above
The walker is under the cloud
Out sound like a two minute warning
Falling on you from above

the mirror you'll see,
has a memory, special feature

the picture you'll see, infatuates me
the mirror you'll see, has a memory

Sisters when hit by the lightning
Wouldn't we talk under these

the mirror you'll see,
has a memory, special feature

the picture you'll see, infatuates me
the mirror you'll see, has a memory, special feature
