

Lagoona, Into My Dream

The sun will arise, it will shine on us.
And the rain will not fall, not on me, not at all.
Every day and every night, so safe, so right.
Take the step and come with me, into my dream.

See stars everywhere, see the sky so clear.
And the moon, it will be there for you and for me.
I can feel that you are near, no doubt, no fear.
Take the step and come with me, into my dream.

Come into this fantasy, stay close to me.
Take the step and come with me, into my dream.

Once you are there, I know you'll stay. I beg, I pray.
Take the step and come with me, into my dream.
