

# Lagwagon, Heartbreaking Music

I've already come to terms  
With bridges I have burned  
We all make mistakes

We keep preparing for the worst  
So it won't seem adverse  
Just like we rehearsed

Click, two, three, heartbreaking music  
So close to loss we use it

How much honesty's healthy  
Say what's on your mind  
The only way to be

We keep preparing for dessert  
Do your homework first  
We don't administer the cure for that thirst

'Cause it's always been heartbreaking music  
So close to death we use it  
Killing

Writing this over and over  
It will never mend

I am the jest malignant cell  
Playwright to your hell  
I think I knew you well

But I wish I were as smart as you  
I could I have changed your mind  
Would of, should of, the question 'til I die

But it's always been heartbreaking music  
So close to life we abuse it  
Killing
