OBLAST JE PRI NAS LJUDSKA!

(English)

The state is taking care of the protection,
cultivation and exploitation of the forests.

The state is taking care of the physical
education of the nation, especially of the
youth, with the aim of improving the nation's
health and national, working and defensive
capability.

Its treatment is becoming more and more
indulgent, all freedom is tolerated. Our
authority is that of the people.

"We decant a sea of bloodshed for brotherhood
and the equality of our nation and we are not
going to allow anyone to touch, to uproot from
inside or to destroy in any way this
brotherhood and equality..."
