

Laika, Oh

We talked like giddy schoolgirls
It seemed we turned a corner
I remember smiling
It was a piecemeal resolution
With only best intentions
And i'm going frustrations
Words designed to pacify
It helps the sun is shining

And on and on and on and on and on and oh
And on and on and on and on and on and oh
And on and on and on and on and on and oh
And on and on and on and on and on and oh

You're feeling so much better
And how you're looking well
With only best intentions
Imperfect recollections
With eyes as big as headlights
I remember smiling
Words designed to justify
It helps the sun is shining

And on and on and on and on and on and oh
And on and on and on and on and on and oh
And on and on and on and on and on and oh
And on and on and on and on and on and oh

We'll talk and we will whisper
But touch me and you'll burn
Girls as sweet as sweet can be
I remember smiling
With only best intentions
And on going frustrations
Words designed to crucify
It helps the sun is shining

And on and on and on and on and on and oh
And on and on and on and on and on and oh
And on and on and on and on and on and oh
And on and on and on and on and on and oh
